THE COURSE OUTLINE FOR MATH 330, SECTION 03, FALL 2014
MWF, TIME 12:00–1:00, SW 324, and R, TIME 1:15–2:40, OW 100B

Instructor: Prof. Adrian Vasiu
Office: OW 111 (Dept. of Mathematical Sciences)
Phone (office): *7-6036
E-mail: adrian@math.binghamton.edu
Office hours:
   Mo: 3:30–5:00
   Wed: 2:00–3:30

Credits: 4.

Goal: We will cover Part I and we will try to cover Part II as well.

Prerequisites: Math 222 or the equivalent of it.

Exams: There will be three mid-term exams of 60 minutes and a final exam of 120 minutes. The mid-term exams are scheduled for Wednesday, October 8, Monday, November 10, and Wednesday, December 10. The final exam is scheduled for Wednesday, December 17, 20:05–22:05, in S1 149. Each mid-term exam will be worth 60 points and the final exam will be worth 120 points. Thus the four exams together will be worth 300 points.

Homework: Homework will be assigned on a weekly basis but not graded. Feed-backs will be provided either by underlining the first mistake or during office hours.

Quizzes: There will be 5 unannounced quizzes. Each quiz will be worth 10 points and will be 10 minutes. Thus all the quizzes together will be worth 50 points.

Points: The total number of points available on exams and quizzes is 350.

Lectures: 52 lectures + 3 mid-term exams= 55 hours. Pace of lectures: 1 to 2 pages per lecture (empty pages/paragraphs not included).

Possible grades: Tentative grading scale: 87-100% for A, 75-86% for B, 58-74% for C, 50-57% for D, 0-49% for F.

Expectations, Attendance, and Classroom Decorum: The expectations on the writing are threefold: clarity, completeness, and accuracy. Students are expected to attend every scheduled class, to take notes, to participate during lectures, and to attend office hours. Late arrivals, early departures, cell phone conversations, eating, or drinking are not appropriate. It is students’ responsibility to keep informed about all announcements, syllabus adjustments, or policy changes made during scheduled classes and/or e-mailed.
