Instructor: Michael David-Oliver Fink

Office: LN 2403
Math Help Room: LN 2216 (above coffee kiosk in library tower)
Office Hours in My Office: 1:00 to 2:00 every Monday
Office Hours in Math Help Room: 12:00 to 2:00 every Tuesday
Email Address: fink@math.binghamton.edu
Official Calculus I Webpage: www.math.binghamton.edu/calc1
My Webpage: <http://www.math.binghamton.edu/grads/fink>

This document is not the official course syllabus, but pertains to the details of my section. The official Calculus I webpage is where the official course syllabus is located.

My Ten Percent

According to the official course syllabus, I have control over ten percent of your total course grade. This will consist of fifty percent quizzes and fifty percent homework.

Homework

Homework grades will be compiled based upon two factors. The first part of the grade is based upon completion of all problems assigned. The second part of the grade is based upon the correctness of the problems which are checked for accuracy. Not all problems will be checked for accuracy. Only problems which are specifically designated to be checked for accuracy will be checked for accuracy. All other problems will be check for completion.

Homework will be collected at the beginning of class on the due date. If you are unable to turn in your homework on time on the day designated, you must let me know ahead of time and provide written documentation. Homework will be graded and returned as soon as possible. The homework assignments will be given in class, but will also be available online. To view the homework online, follow the links on my webpage.

Quizzes

Quizzes will be given weekly and returned as soon as possible. No makeup quizzes will be given. However, the lowest quiz will be dropped at the end of the semester when your grade is compiled.
