

Template for typing a dissertation in TeX

The files below were used by at least one graduate student to make sure that the dissertation fit the requirements of the graduate school. Use them only if you have some working knowledge of TeX.

There is no guarantee that goes with these files. You are responsible for finding out from the graduate school what the requirements are for the dissertation (which might change with time) and for making sure that your final print out meets the requirements.

The files are:

- main.tex the main file.
- introduction.tex a sample.
- chapter1.tex a sample.
- chapter2.tex a sample.
- conclusions.tex a sample.
- references.bib a sample.
- dissertation_template.pdf what the files above produce.
