Assistant Professor in Statistics

The Department of Mathematics and Statistics at Binghamton University invites applications for a tenure-track position in Statistics at the rank of assistant professor, beginning in Fall 2024. The successful candidate must have a strong record of research and teaching and would complement and/or strengthen our existing research group. Applications from underrepresented groups and minorities are especially welcome. The search is open to all areas of statistics. Applicants with backgrounds in data science, statistical learning, network science, causal inference, Bayesian statistics, mathematical statistics, and large scale statistical computing are especially invited to apply. Current research in the statistics group includes semiparametric and nonparametric inference, statistical learning, high-dimensional inference, biostatistics, survival analysis, sequential analysis, design of experiments, and random matrix theory.

Binghamton University is a highly ranked R1 public institution engaged in outstanding research and education. Opportunities for collaborative research are provided through research groups such as various Organized Research Centers and six Transdisciplinary Areas of Excellence (in Data Science, Health Sciences, Smart Energy, etc.). In particular, the Data Science Transdisciplinary Area of Excellence is a dynamic research group focused on fostering data-centered research.

The minimal qualification for this position is a doctoral degree (Ph.D. or the equivalent) in mathematical sciences or a closely related field. To start the application process:

(1) Submit a cover letter and CV through the Binghamton University Interview Exchange portal at <http://binghamton.interviewexchange.com/candapply.jsp?JOBID=169000>

AND

(2) Submit the following material to mathjobs.org at <https://www.mathjobs.org/jobs/list/23620>: a cover letter, CV, research and teaching statements, at least three reference letters on research, and one reference letter on teaching

Applications received before January 7, 2024, are guaranteed full consideration. The position will remain open until filled.

Binghamton University is an equal opportunity/affirmative action employer.

Assistant Professor in Topology/Geometry

The Department of Mathematics and Statistics at Binghamton University invites applications for a tenure-track position at the rank of assistant professor, beginning in Fall 2024. Priority will be given to candidates in broadly defined Topology/Geometry. The successful candidate must have a strong record of research and teaching and would complement and/or strengthen our existing research group. Current research in the department includes algebra, analysis, applied mathematics, combinatorics, geometry/topology, probability, and statistics. Applications from underrepresented groups and minorities are especially welcome. Binghamton University is a highly ranked R1 public institution engaged in outstanding research and education. Opportunities for collaborative research

are provided through research groups such as various Organized Research Centers and six Transdisciplinary Areas of Excellence (in Data Science, Health Sciences, Smart Energy, etc.)

The minimal qualification for this position is a doctoral degree (Ph.D. or the equivalent) in mathematical sciences or a closely related field. To start the application process:
